“I love this story! Fasten your seatbelt for a wild ride!”David Alan Arnold, Helicopter Cameraman for Deadliest Catch, Bering Sea Gold, and SURVIVOR

“The true, high-flying, epic adventure story of discovery and courage. I couldn’t put the book down!” John Kelly, Detroit Free Press

Cross Winds is the remarkable true story of what happens when courage and optimism face off against system collapse and fear.

Success is not for the faint of heart!

After a mountain-climbing incident that nearly took his life, Steven Myers realized that the cornerstone of courage is optimism. This epiphany empowered him to become one of the most successful entrepreneurs of our time and led him on a high-flying adventure that would change his life forever.

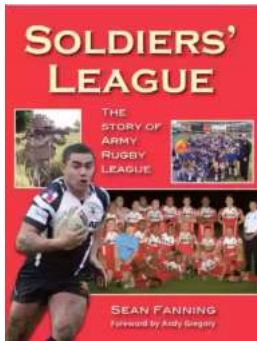

In 1992, at the end of the Cold War, Myers was invited by Russian leaders to fly into one of the most remote and dangerous areas of the former Soviet Union. There, he was to look for potential ways to bring business into an area after system collapse.

What followed is the clash of two vastly different cultures: Americans, with go-for-broke, entrepreneurial “can do” attitudes, and Russians with a long, painful history of constraining rules, risk aversion, and fear. Steve’s story recounts the friendships forged while up against almost unsurmountable odds, the gritty details of running a business abroad, and of course, the tonic of plenty of vodka.

And then, after years of hard work, two US government agents alert Myers that his life is in danger if he continues with his business activities in Russia. The rest reads like an espionage novel!

heard of.
