Memories of Montana's Bear Creek Valley flicker briefly to life each February on the anniversary of its darkest day. It is remembered as the site of Montana's worst coal mining accident, which claimed the lives of 75 miners, but the valley was so much more. For decades it was Montana's "coal basket," housing two towns, dozens of coal mines, and a population equaling that of neighboring Red Lodge.

Businesses included a movie theater, dry goods store, grocery stores, hotels, hospitals, butchers, banks, bars, and union halls, all serving residents with pan-European origins. Its schools produced championship sports teams and community leaders. Gone, but not forgotten, Bear Creek Valley lives on in this book.
