## The Basic Diagonal Stripe Friendship Bracelet

This is the basic friendship bracelet. The whole bracelet is made with the basic knot, left to right.

**What you'll need:** Four colors of embroidery thread, which you can get at any craft store, each 25 inches long (about 63 cm).

**Getting started:** Tie a knot about 1-1/2 inches (4 cm) from the top.

Separate the strands. Unless you really can't stand them, use our colors as shown. It'll make the instructions simpler.

**1**

Start with string 1 (green) and loop it over and then under string 2 (yellow). Hold string 2 (yellow) straight (this is important) and pull the knot snug.

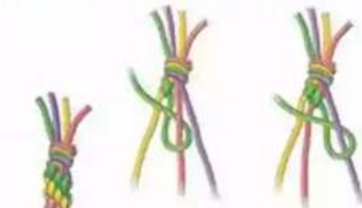

**2**

Do step 1 a second time so you have a double knot.

**3**

Now take string 1 (green) and make double knots around each of the remaining strands (pink and purple), left to right.

**4**

Now do the same thing again. Start with the far left strand (yellow) and tie double knots, left to right, all the way across the other colors.

**6**

Gather the strings and tie a knot to secure. Trim the ends to about 1 - 1 1/2 inches (4 cm).

**5**

Keep going until the bracelet is as long as you would like.

Traditionally, friendship bracelets were created by North American Indians using a simple piece of knotted cord, but more recently they have evolved to include a multitude of materials, techniques and styles. Modern designs use leather, suede, ribbon and cord, and feature charms, beads and crystals – there are no rules and you are limited only by your imagination! However, the spirit of the friendship bracelet remains – a handmade gift to celebrate and confirm a special friendship. The twenty designs in this book range from those that are beautifully simple and easy to make, to some that may take a little longer but are well worth the effort. Each project is accompanied by a list of the materials and tools needed, step-by-step instructions and beautiful photographs of the finished piece, and with two versions of each design to choose from, you cannot fail to be inspired by at least one of the projects in this book. Some of the designs use simple knotting and plaiting techniques, and these are shown in clear, step-by-step pictures at the beginning of the book. Once you have mastered these, there are no limits to the designs that you can make.
