In October 2012, Peahead emigrated to New Zealand. Mass wasn't happy that his buddy had gone somewhere which wasn't in America, and sulked for a whole two months.

When finally he got over the disappointment, he decided that the only solution was to join his friend for a six week road trip around New Zealand instead. In December he flew to Auckland and the two friends set off to explore both islands. For the first time on one of their road trips, they were also joined by Peahead's brother, Piss, and his long-suffering German girlfriend, Muntsie.

The Land of the Long White Cloud was about to become the Land of the Great White Mass.
