### About the Authors

Janet Asimov, with her late husband, Isaac, wrote the *Norby* series about a feisty half-alien robot. In the novels, Norby's name comes from the original label-- "Norb's Nails"--- on his barrel body, but the authors actually stole the name from an early cyberneticist named Norbert Weiner. Janet is a retired M.D. and a non-retired writer who still lives in the Asimovs' beloved Manhattan, where Norby's owner---a space cadet---also lives.

Isaac Asimov was a scientist, science fiction and fantasy writer. He was famously prolific and wrote over 700 books, among them the acknowledged classics *Foundation* and *I Robot*. He also co-wrote children's books, including the *Lucky Starr* series, and the *Norby Chronicles* with his wife Janet.
