

Pershing: Chief Of Operations And Eisenhower Mentor - The Generals

General John J. Pershing was a highly influential figure in the United States Army, both as a leader and as a mentor to future generations of military leaders. Serving as the Chief of Operations during World War I and later becoming a

mentor to General Dwight D. Eisenhower, Pershing's remarkable career left an indelible mark on American military history.

The Early Years

John Joseph Pershing was born on September 13, 1860, in Laclede, Missouri. Growing up during the tumultuous period of the American Civil War and the Reconstruction era, Pershing developed a deep appreciation for the military and its role in preserving the nation's unity.

After attending the United States Military Academy at West Point, Pershing graduated in 1886 and was commissioned as a second lieutenant. He quickly demonstrated his leadership skills and strategic thinking, earning the nickname "Black Jack" due to his command of a predominantly African American unit, the 10th Cavalry Regiment known as the "Buffalo Soldiers."

Chief of Operations in World War I

One of Pershing's most significant contributions to military history was his role as Chief of Operations during World War I. In this position, he played a vital role in planning and coordinating American military operations, ensuring the successful deployment of troops and resources.

Pershing's strategic brilliance was evident during the Meuse-Argonne Offensive, a critical battle that marked a turning point in the war. Through his leadership and meticulous planning, Pershing led the American Expeditionary Forces to victory, breaking the German lines and resulting in the end of the war.

His prowess in the field earned him the title "General of the Armies," making him the highest-ranking officer in the history of the United States Army. Pershing's

exceptional leadership skills and ability to adapt to the changing demands of warfare left a lasting legacy in the annals of military strategy.

Mentoring Eisenhower

General Pershing's influence extended beyond World War I. He also played a crucial role in shaping the career of another legendary military leader: General Dwight D. Eisenhower.

At the time, Eisenhower was a colonel serving as Pershing's aide during the Tank Corps' formation in 1917. Pershing recognized Eisenhower's potential and mentored him, providing guidance and opportunities for growth.

Pershing's mentorship had a profound impact on Eisenhower, influencing his leadership style and strategic thinking. Under Pershing's guidance, Eisenhower developed essential skills that would later prove invaluable during World War II, where he served as Supreme Commander of the Allied Expeditionary Forces.

Legacy and Recognition

General Pershing's contributions to the United States Army and the field of military strategy have earned him enduring recognition and admiration. He received numerous accolades, including the Distinguished Service Cross, the Silver Star, and the Purple Heart for his outstanding service during World War I.

To honor his exceptional achievements, various military installations, including the U.S. Army's main training facility, Fort Benning, were named after him. Pershing Square, located in Washington, D.C., also serves as a tribute to his significant contributions to the nation.

General John J. Pershing's remarkable career as the Chief of Operations during World War I and his mentorship of General Dwight D. Eisenhower have solidified his place in American military history. Through his strategic brilliance, leadership qualities, and dedication to preserving national unity, Pershing stands as an iconic figure who played a pivotal role in shaping the United States Army's future leaders and ensuring the nation's security.

Winner of the 2016 Army Historical Society Distinguished Writing Award. “Anyone interested in American military history will find it a treasure” (Karl Roeder, Alumni Professor Emeritus, Louisiana State University).

During World War I, Gen. Conner served as chief of operations for the American Expeditionary Force in Europe. Gen. Pershing told Conner: “I could have spared any other man in the A.E.F. better than you.” In the early 1920s, Conner transformed his protégé Dwight D. Eisenhower from a struggling young officer on the verge of a court martial into one of the American army’s rising stars. Eisenhower acknowledged Fox Conner as “the one more or less invisible figure to whom I owe an incalculable debt.” This book presents the first complete biography of this significant, but now forgotten, figure in American military history.

In addition to providing a unique insider’s view into the operations of the American high command during World War I, General Fox Conner also tells the story of an interesting life. Conner felt a calling to military service, although his father had been blinded during the Civil War. From humble beginnings in rural Mississippi, Conner became one of the army’s intellectuals. During the 1920s, when most of the nation slumbered in isolationism, Conner predicted a second world war. As the nation began to awaken to new international dangers in the 1930s, Pres. Roosevelt offered Fox Conner the position of army chief of staff, which he declined. Poor health prevented his participation in World War II, while others whom he influenced, including Eisenhower, Patton, and Marshall, went on to fame.

“A biography that is both dramatic and compelling.” —Mark Perry, author of *The Pentagon’s Wars*
