1. Create Your Indoor Oasis

No outdoor sunshine? No problem! Create your own indoor oasis by setting up a cozy space with lots of natural light. Open up your curtains or blinds to let in as much sunlight as possible. You can also use bright artificial light sources that mimic the sun's rays.

Decorate your space with plants and flowers to bring a touch of nature inside. Not only will this brighten up your surroundings, but it will also purify the air and create a fresh atmosphere. Make sure to choose plants that thrive in bright conditions, such as succulents or sun-loving flowers like sunflowers.

When the “grownup virus” hits, kids who live in the same apartment building must cope with strange new rules and extended time at home with parents and siblings.

And they survive brilliantly, each in their own way. Twin boys throw themselves into an independent research assignment on prehistoric people and embrace their own devolution. A budding track star is encouraged to run laps on his balcony by a neighbor who has a secret crush on him. A classroom troublemaker reaches out to a teacher when his own father begins to exhibit signs of mental illness. A young entrepreneur saves himself and his hairdresser mother from

financial collapse by renting out the family dog. And a girl finds a way to communicate with her hearing-impaired neighbor so that they can spy on the rest of the building.

The stories follow the course of the pandemic, from the early measures through lockdown, as the kids in the building observe the stresses on the adults around them and use their own quirky kid ingenuity to come up with ways to make their lives better. Funny, poignant and wise, this book will long outlive even the pandemic.
