

# Unbelievable Firsthand Experiences With Things That Can Happen But Did!

Life is full of surprises, and sometimes these surprises come in the form of unexpected events that leave us in awe. When we encounter things that we never thought would happen, it can be both thrilling and perplexing. In this article, we will delve into a collection of firsthand experiences shared by individuals who witnessed things that can happen but did. Buckle up and get ready for a mind-blowing ride!

## The Enigmatic Alien Encounter: Uncovering the Unknown

Picture this: you're strolling under a starry night sky when suddenly a blinding light engulfs your surroundings. You find yourself face-to-face with beings that are not from this world. This is exactly what happened to John, a farmer from a rural town. He recounted his experience with these extraterrestrial creatures that left him questioning the existence of other life forms beyond our planet.

John described the aliens as tall and slender beings with luminous eyes that emitted an otherworldly glow. They communicated through telepathy and shared profound insights about the universe and interdimensional travel. Although skeptical at first, John's encounter forever changed his perspective on life and the vastness of our universe.

## **A Thrilling Journey Through Time: A Glimpse into the Past**

Have you ever wondered what it would be like to travel through time? Well, meet Sarah, a historian who stumbled upon a mysterious artifact that allowed her to traverse different eras. Sarah recounted her incredible journey through time, where she witnessed historical events like the signing of the Declaration of Independence and the construction of ancient wonders.

During her adventure through time, Sarah encountered renowned historical figures, engaging in conversations that shed light on their true characters. From Benjamin Franklin's wit to Cleopatra's charm, Sarah's firsthand experiences provided her with a deeper understanding of history and its impact on the present.

## **The Astonishing Power of Telekinesis: Unleashing the Mind's Potential**

Imagine having the ability to move objects with the power of your mind. This is what happened to Mark, a regular guy who discovered his latent telekinetic powers during a moment of intense concentration. Mark shared how he learned

to control and develop this astonishing ability, transforming his life in unimaginable ways.

From levitating small objects to influencing the outcome of events, Mark's telekinetic powers gave him a newfound sense of empowerment. He described the process of honing his skills and the challenges he faced when navigating this extraordinary gift. Mark's firsthand experiences redefine the limits of human potential and leave us questioning the untapped powers of our own minds.

## **The Miraculous Healing of a Terminal Illness: Defying Medical Expectations**

In a world where modern medicine dictates our fate, sometimes miracles happen that defy all expectations. Meet Emily, a woman who was diagnosed with a terminal illness and given a limited time to live. However, against all odds, Emily defied medical predictions and made a miraculous recovery.

Emily's story is a testament to the resilience of the human spirit and the power of hope. She shared her journey of healing, detailing the alternative treatments she pursued and the spiritual awakening that accompanied her recovery. Emily's firsthand experience serves as a reminder that sometimes, there are things beyond the realm of scientific explanation.

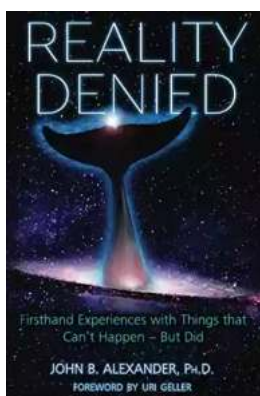

## **The Unexplained Phenomenon: Challenging the Laws of Physics**

Physics governs the world we live in, but what happens when we witness events that defy these established laws? Michael, a physics professor, had his beliefs shattered when he encountered an unexplained phenomenon that defied all scientific logic.

Michael recounted the incident, where he witnessed objects moving without any apparent cause, gravity behaving erratically, and time seeming to warp. He

questioned everything he had ever known and devoted his life to unraveling the mysteries of this unexplained phenomenon. Michael's firsthand experience challenges the boundaries of our scientific understanding and opens up new possibilities.

Firsthand experiences with things that can happen but did are not just fascinating but also thought-provoking. They shatter our preconceived notions and push the limits of what we believe is possible. These stories serve as reminders that the world is full of wonders and mysteries waiting to be discovered. So, keep an open mind and embrace the unexpected, for you never know what amazing experiences await you!

REALITY DENIED confronts conventional wisdom with events that, although quite real, seem to challenge the revered “laws of science,” proving them to be wrong or incomplete. The thorny issues of life after death, mind over matter, UFOs, remote viewing, telepathic communications with animals, and more are all

addressed from Col. John Alexander's firsthand perspective. Here physical and spiritual domains collide, providing glimpses of worlds beyond everyday reality.

"Highly recommended!" — Dr. Eben Alexander, author of "Proof of Heaven"

"When Alexander speaks, I listen." — Dr. Richard Bandler, co-developer of NLP

"Extraordinarily courageous book..." — Dr. Larry Dossey, author of "One Mind"

"Explicitly challenges traditional scientists..." — George Noory, Coast to Coast AM

"An insider's take on enigmas..." — Dr. Raymond Moody, author of "Life after Life"

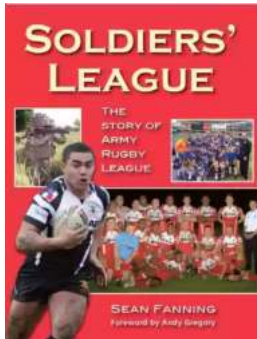

"A masterful storyteller..." — Annie Jacobsen, Pulitzer Prize finalist, "Area 51"

"The universe confronted, if not transformed..." Stanley Krippner, Saybrook University

"Prepare to have your world rocked!" William Bengston, Society for Scientific Exploration

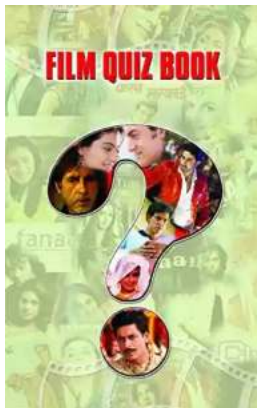

JOHN B. ALEXANDER, Ph.D., is a retired senior Army officer with decades of experience with a wide range of phenomena. Traveling to all eight continents, he has encountered events that defy common explanation. He has met with shamans in the Amazon, the Himalayas, the Andes, East and West Africa, and Northern Mongolia. In Tonga, he dived in open ocean with humpback whales, and was involved with telepathic experiments with wild dolphins in the Bahamas. A psychic adventurer, he practiced psychokinetic metal bending, fire walking, and caused a white crow to fly for the National Academy of Sciences. A founding

board member of IRVA, he is a past-president of IANDS, and former SSE councilor. Straddling two worlds, he is also retired from Los Alamos National Laboratory, and served on studies with the National Research Council, the Army Science Board, the Council on Foreign Relations, NATO, and was a senior fellow of a DoD university. Dr. Elisabeth Kübler-Ross headed his doctoral committee. His website is at [johnbalexander.com](http://johnbalexander.com).
