### **Secrets await!**

Solve the puzzle, uncover secrets!

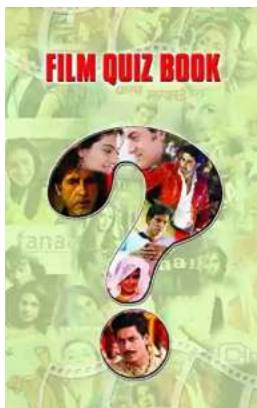

According to ancient lore, a millennia ago there was an unspeakable power held within the Stone of Bregu. This ancient jewel was broken and its pieces were scattered across the cube. Stories tell of shards being recovered. Their wielders gain incredible power—but it is a personal power that does not replicate: no two people have exactly the same ability. Every shard offers a glimpse into the Bregu's all-consuming power. Some say there is only one who is destined to reunite the shards and use the strength found within the Stone of Bregu to create balance in the world. Many Heroes have considered it their destiny, though few have had any luck in finding more than a single shard.

Gwen was once one of the most powerful Heroes in the realm, but as she grows older her strength wanes. When a troubled stranger presents her with the missing shard of Bregu—and the opportunity of a lifetime—age becomes . . . less of a concern. Power corrupts even the purest of minds, and Gwen holds the source of utmost power. In a twist of fate, she might find that her destiny lies in the dark magic she once held at such a careful distance from her heart.
