Serve the community. Obey the laws. Exist on anxiety pills. This is all Monet, a ward of her city, can hope for until she and her friend, Luke, find an old book that shows the history of mankind—a past that's been hidden from them and all the citizens of Titus. As their curiosity takes them down a dangerous path, extraordinary events begin to occur, showing them God may exist and is reaching out to them through illegal art and a realm of paranormal activity. Monet and Luke find themselves at a crossroads: live within the safe, logical confines of Titus, or embrace the wild truth and risk death.
